Adobe Illustrator
Adobe PhotoShop
Atom
Eclipse/Java
Figma
Visual Studio

PROJECTS / EXPERIENCE

Web Development, University of Northampton

For the first year of my undergraduate degree, I created a five paged newspaper-style website. I was required to build a mobile responsive, site using HTML5 and CSS3 while implementing material design.

Internship, University College of the Cayman Islands

For my internship, I was part of a small team that was responsible for managing the design and development of the ucci-tv website. I was required to publish articles/blogs and videos to the site, as well as establishing and maintaining their social media accounts.
